

Cambria Freeman.

EBENSBURG, CAMBRIA CO., PA.
FRIDAY, -- SEPTEMBER 26, 1892.

DEMOCRATIC STATE TICKET.

For Judge of Supreme Court,
SAMUEL G. THOMPSON, of Philadelphia.

For State Treasurer,
FRANK C. OSBURN, of Pittsburg.

DEMOCRATIC COUNTY TICKET.

For Treasurer,
JOSEPH BENGLE, of Gallitzin Bor.

For County Commissioners,
PATRICK E. DILLON, of Elder Twp.
JOHN KIRBY, of Johnston.

For Poor Director,
JOHN BOST, of Johnston.

For Auditors,
W. C. BERRY, of Wilmore Bor.
F. E. FARABUCCI, of Carroll Twp.

A STEAMSHIP SAILED FROM NEWPORT NEWS, FOR LIVERPOOL, LAST WEEK,

which carried among her cargo 1,275 hogsheads of tobacco, the largest shipment ever made from a Virginia port.

FURMER John Ashenbaugh, of York county, Pa.,

was fired on a pigeon feeding on top of a stack of grain. That stack was set on fire and from it four others, resulting in the season's entire crop being destroyed.

GERONIMO, the once powerful and cruel Indian chieftain of the West,

is now a quiet and peaceful prisoner at Mt. Vernon barracks, an army post upon the Alabama river, a short distance above Mobile.

The silver senators are still talking

against time and there appears to be nothing for the masses of the people to do but put up with it. This may do for a time but there will be a time of reckoning when the people get aroused.

Five thousand Hebrews assembled at Mile End, in London,

to observe the Day of Atonement. The building was crowded to suffocation, but the people did not dare attempt to leave for twelve hours, which time the suffering of the worshippers was very severe.

The Dominion Labor Congress at Montreal

submitted a resolution asking the Government to adopt to popular vote the questions of imperial federation and political union with the United States. An amendment declaring for Canadian independence was afterwards carried by a large majority.

A RECENT cyclone in Iowa

followed the route of a railroad for many miles. Deliberation on this fact has convinced a Kookuk theorist that it is possible to conduct all the cyclones out into the open spaces of the country, where they can do little harm, by having railroads convenient for them to travel on.

ASPIRANTS for a place on the state supreme bench

take very little consolation in the fact that unless death strikes the court there will be no vacancy on it until 1900, when chief Justice Sterrett retires. He will be followed in 1902 by Judge Green, and after that there will be no break until 1909, unless by death or resignation.

In nominating William B. Hornblower, New York,

to succeed to the vacancy in the Supreme Court left by the death of Judge Blackford, and J. J. Van Allen, Rhode Island, to be ambassador to Italy, President Cleveland sprang a double surprise on the politicians. The fitness of both gentlemen for the positions to which they have been nominated is conceded by all, and there is no trouble about their confirmation.

ROBERT SMITH, a negro, criminally assaulted

his wife, a white woman at Roanoke, Va. He was arrested and placed in jail. A crowd gathered for the purpose of lynching the fiend. Soldiers called out to guard the jail freed on the crowd killing 12 persons and wounding 20 others. Later the negro was lynched and his body burned. Much feeling exists over the act of the soldiers in firing upon the people.

THERE is no improvement in the political situation in the Argentine Republic.

On Saturday the revolutionists in the province of Tucuman tore up the railway tracks in order to prevent the troops under command of General Pellegrini, who had been sent to restore order to those provinces, from reaching the scene of the trouble. The Diario, of the city, has been compelled by the government to suspend publication for infringing the rules of press censor.

THE statisticians are widely at variance in their estimates of the wheat crop.

The "Cincinnati Price Current" thinks that the yield has not fallen much, if any, below 400,000,000 bushels, while "Bradstreet's" figures out a crop of at least 440,000,000 bushels; and several other authorities take exceptions to the Government data from which the crop yield is estimated at about 380,000,000 bushels. After all, however, the calculations of the Federal Department of Agriculture are likely to be the most widely credited.

The majority of the Senate, says the New York Herald,

desire to vote for repeal of the law which has proved so disastrous to the country. The business interests of the nation demand its repeal. Popular sentiment demands it.

Five Senators declare in behalf of a small minority

that the popular will shall not prevail, that the business interests of the country shall not be safeguarded.

How long does the majority propose to continue this extraordinary spectacle?

How long is popular sentiment to tolerate it?

It is high time to assert the principle of majority rule and deal summarily with an abuse as detrimental to the country as it is anomalous and scandalous.

On Tuesday President Cleveland appointed Philip G. Fenlon as postmaster at Ebensburg. The appointment of a Democrat to this office, as well as a number of others in Cambria county, should have been made long ago, but it is better late than not at all. The editor of this paper, and the writer of this, was an applicant for the appointment under the impression that our services to the party as a worker for its good, whether in adversity or prosperity, should have some recognition, but under the ruling of Mr. Cleveland that one term (or a part of a term in our case) was enough for anyone except himself, we went down.

In the appointment of Mr. Fenlon we low, with all due deference to the superior knowledge of Cambria county's wants in politics, to the gentlemen from Bellefonte and Philadelphia, who insisted on making the appointment, and trust that they know exactly what is best for Cambria county Democrats.

The appearance of Mr. Fenlon as a political factor in Cambria county is something new and an unknown quantity; when he hurls his political weight on the Republicans this fall, we trust the gentlemen from Bellefonte and Philadelphia, who have taken Cambria county under their wing, will have much to rejoice over, and that the people of Cambria will learn to appreciate the fact that the political plums falling to her Democracy will be charitably dispensed by gentlemen from afar, who have had better success in dealing out postoffices than in sending delegates from Cambria to gubernatorial conventions.

St. Louis is already in the field says the Pittsburg Post, for the next world's fair, in 1903, in celebration of the centennial of the acquisition of the territory of Louisiana by the United States. The treaty was made in 1803, but the transfer of the territory did not take place until the following year. A feature of the celebration already determined on is the dedication of a monument to Thomas Jefferson. The territory acquired by the treaty with France embraced about 1,500,000 square miles, or half the area of the United States, and twice the area at that time. From it have been made the states of Louisiana, Arkansas, Missouri, Iowa, Minnesota, North and South Dakota, Montana, Idaho, Washington, Oregon, Wyoming, Nebraska and Kansas. Fourteen states in all, as against the original 13. Oklahoma and the Indian territory also lie within the boundaries purchased from France. Aside from the declaration of independence and the adoption of the federal constitution this treaty was probably the most important event in American history.

The net state debt, says the Philadelphia Times, now amounts to only \$2,400,000, or about forty-five cents per capita. This is State Treasurer Morrison's gratifying assurance, and the amount can be called square all around in two years should the Legislature so decide. The sinking fund is really sufficient to meet every dollar, and the State's resources, already drawn upon for \$5,000,000 public school appropriation annually, may soon be directed to perfecting a comprehensive system of road improvements. The common highways of the Commonwealth are in a wretched condition. An efficient road law, similar to that in operation in New Hampshire, would add to the value of farming lands and open sections to agriculture, now closed to development because of the impossibility of marketing the harvests and crops. A road law assisting the private enterprise of resident owners or the operations of County Commissioners would cover the bill.

People should not fail to remember that Joseph Bengle, the Democratic candidate for county treasurer; Hoke Smith, who beheaded the veterans as unworthy and dishonest; and the Chicago platform, which has stood the property of the country on its head, all belong to the same party and espouse the same cause.

Joseph Bengle, belongs to the Democratic party

and is proud of it. He belongs to the party that is willing to stand and anxious that every deserving veteran should have a pension, but that the bounty jumpers and frauds shall not get their fingers into the treasury in the name of patriotism. The Chicago platform, if followed will bring prosperity for the days for protection to favored classes are over. The people have spoken at two elections and although the members of the G. O. P. are loath to realize it and want another chance, the days for getting along for a few protected industries have gone by.

The American Manufacturer says:

"A Russian who claims to have made a thorough investigation of the source of natural gas advances the theory that the gas is the product of the salt water, which is found in the locality from 1,200 to 1,500 feet below the surface of the earth, coming in contact with the molten carbides in the earth's interior. He has partly proved it by subjecting the salt water to the conditions, and producing a gas which could not be distinguished from the natural article. He is also subject to the conditions of a further development of this theory, and produced oil similar to that found in gas regions. If the theory is correct we shall continue to have natural gas as long as the earth has heat and the salt seas remain."

In conversation at Washington

on Tuesday Congressman Wilson said he had already commenced work on his tariff bill, and that, unless some unexpected difficulties arise, there would probably be no sub-committees appointed on the several schedules, as was done in the case of the McKinley bill, and that no announcement of the progress made would be given out until the completed bill was ready for presentation to the House.

The idea the earth is slowly drying up

has quite a set-back by the recent announcement of the hydrographic engineers that the Gulf of Mexico is one foot higher than it was in 1850.

Washington Letter.

WASHINGTON, D. C., Sept. 23, 1892.

The humiliation of Tom Reed and his lieutenant, Barrows, of Michigan, when they learned that the Democrats of the House proposed to put an effectual quill upon the Republican filibustering for the repeal of all laws authorizing the presence of U. S. officials at elections, was a pleasing sight to Democratic eyes. Because the Democrats of the House, in the adoption of regular rules had been extremely lenient towards the minority the Republicans assumed that no check would be put on filibustering. They were given free reign for awhile because there was no quorum of Democrats present, but as soon as a quorum of Democrats was on hand they were effectually smothered by an order reported from the committee on Rules and the bill was reported to the House. This order was the result of an assumption of power by a single individual, as were rulings of Tom Reed when he was Speaker; it was authorized by a Democratic caucus, as such things always should be. The Republicans are to be admonished that reasonable length of time during which the debate on this bill shall be carried on, but they are not to be allowed to filibuster against a vote upon it after legitimate debate has been exhausted.

The public trial hearings were concluded this week, and the Democrats on the House Ways and Means committee are now at work upon the bill. Although the number of days were fewer, they were given by some of the other committees, more time was given by the committee than was ever given before for public hearings. Chairman Wilson, spokesman of the majority, says that the tariff, said: "The Democratic members will work together. Some of the schedules will be prepared by all of the Democrats together, while others will be referred to sub-committees for preparation. The order to be revised by the full Democratic membership of the committee. It is not possible to say when the bill will be completed, but it will require more of the details of a committee which had a tariff bill to prepare seem to think necessary. We might fix up a measure in short order, but it is not that kind of a bill we want to present to this country. Legislation affecting so many interests must be very carefully considered and its effects calculated before we can hope to perfect a bill which can stand the many tests which it will be subjected when carried to a vote. Such a measure as this cannot be successfully hurried. We shall, however, lose no time, and hope to present it to the House at the earliest possible moment consistent with the important interests involved."

Several times this week the Senate has aroused public expectation by appearing to be on the eve of final consent over the Vorhees repeal bill, but it has not yet. Senator Miles, of Texas, made one of the strongest speeches of the week, in favor of repeal; Senator Vorhees made a characteristic explanation of his position in answer to a question because he had not forced a vote, calling the attention of the country to the fact that it is simply impossible to force a vote under the present rules of the Senate, rules which have not been materially changed for more than eighty years, and the Republican Senators, for and against the bill, had a regular monkey and parrot time at it, and it is not likely that it will be abandoned or a compromise reached. The bill is not likely to be adopted. President Cleveland is still confident that the bill can be passed and for that reason declines to consider anything in the shape of a compromise.

Run Into Runaway Cars.

LANCASTER, Sept. 25.—The Quarryville and Reading railroad, in passing through this city, crosses the Pennsylvania tracks on an overhead bridge, the distance between the King street depot and the bridge being less than half mile, making a very steep grade. This afternoon the train which leaves here at 3:15 for Lancaster had just pulled into the depot, when the engineer saw a runaway freight car coming down the grade. Before he could reverse his engine the crash came, the first freight car being ground to splinters by the next telegraph pole. The second was a large coal car, and, after striking the locomotive, it plunged to the right, fortunately away from the platform where the passengers were standing, and, after breaking off two telegraph poles, brought up within a few inches of the wall of a dwelling, a complete wreck. The whole front of the locomotive was crushed in and covered with debris.

Unearthed Spanish Treasures.

OAKLAND, Cal., Sept. 18.—Mysterious diggers, supposed to be seekers after buried treasure, have unearthed in this city the remains of a Spanish house. They sunk a shaft fifteen feet deep near the lake and struck a wall partly of Spanish bricks or tiles. Along this wall runs a tunnel, and at right angles from it runs a series of arches. The diggers broke through the wall into an underground house, the walls of which were of ordinary brick cemented with white clay. The Spanish tiles are hexagonal and flat.

She Has Left The Count.

PHILADELPHIA, Sept. 24.—Matrimonial troubles have separated the Count and Countess Pappenheim, and the latter will return to her home in Philadelphia next month. Before her marriage the Countess was Mary Wheeler, one of the daughters of the late millionaire Charles Wheeler. Mrs. Wheeler has a magnificent country place at Bryn Mawr, but recently she has been living abroad, occupying the handsome estate "Shanklin," on the Isle of Wight.

Succession Tax.

WASHINGTON, Sept. 25.—Mr. Edman, of Pennsylvania, introduced in the house today a bill to impose a tax on succession to real estate and legacy. The measure provides that when the successor shall be the lineal issue of the predecessor a duty at the rate of 1 per cent shall be assessed on the value in excess of \$100,000 and on values in excess of \$500,000.

When the successor shall be in any other degree of collateral consanguinity

to the predecessor, or a stranger in blood to him, a duty at the rate of 2 per cent, upon the value in excess of \$100,000 and less than \$500,000 is to be assessed, and on values above this a duty of 6 per cent.

The bill contains a provision that no duty shall be levied in respect of any succession when such shall be the wife of the predecessor.

Highest of all in Leavening Power.—Latest U. S. Gov't Report.

Royal Baking Powder

ABSOLUTELY PURE

Wreck on the Washakie Railroad.

KINGSBURY, Ind., Sept. 22.—A frightful train wreck occurred here this morning on the Washakie road about 5 o'clock. Eastbound freight, No. 92 was sidetracked to allow the two sections of No. 55, westbound passenger, to pass.

When the first section of the passenger train had passed, the brakeman of No. 92, opened the switch to allow the freight to proceed on the main track. It is presumed he overlooked the signal, and before the error could be corrected the second section of the fast express came along at the rate of fifty miles per hour, crashing into the engine of the freight, which was on the side track.

The passenger train was forty-five minutes late. Besides a fearful loss of life and a number injured, both engines were totally wrecked and two coaches, one baggage car and one sleeper were smashed and splintered.

The most of the passengers hurt were in the day cars. One sleeper was not derailed. Fifteen doctors were sent to the scene of the wreck, which is horrible in the extreme.

Of the dead three were trainmen and seven or more are passengers.

The engines were jammed into each other up to the chimneys. The smoker and one day coach were telescoped, crushing the people in the latter in a heart-sickening manner. The second day coach was thrown across the tracks on top of the remains of the first.

Two sleepers, the second of which crashed into the forward coach, and for the length of three berths was torn to atoms. The passengers, six in number, were badly shaken up but none killed.

Maniac on the Ferris Wheel.

CHICAGO, Sept. 25.—The strong iron bars protecting the windows of the cars in the Ferris wheel, on Midway Plaisance alone prevented a tragedy yesterday. A visitor to the fair, who gave his name as A. G. Wherritt, of Covington, Ky., entered one of the cars with his wife and as the ascension began complained of feeling sick. When the car passed over the center and began to go down Wherritt, now fainting, laid a wild shriek, he sprang against the bars and was strong in his paroxysms that he bent the heavy iron. Three or four men attempted to control him, but were powerless to restrain his madly reeling about the platform. There were no means of stopping until two revolutions had been made and the attendant tried to put him out as they passed, but the speed was too rapid.

When he found he would be obliged to make another circuit his terror was appalling. He begged to be put out, then for them to hold him down, and the few male passengers exhausted their strength to restrain the maniac.

When the Ferris wheel stopped, Wherritt has a brain disease that causes a desire to throw himself off into space when above terra firma.

Autumn Fashions For Ladies.

The latest fashions from the fashionable centers indicate that jackets with full skirts and very large sleeves will be extensively worn during the fall season, and also that the princess gown—the newest model of which are very elegant—will be very popular. As for blouses, the double skirt will be one of the features of the coming styles. For either jackets or blouses the pretty "gilet" drapery and the picturesque director revers will be especially adopted. The McDevell Magazine, which are the leading fashion publications, both in Paris and this country, contain many designs of all the newest styles. Moreover, they give lessons on practical dressmaking which are of great assistance to professional, as well as to amateur dressmakers. And what is still more recently adopted, The McDevell Magazine, which are the leading fashion publications, both in Paris and this country, contain many designs of all the newest styles. Moreover, they give lessons on practical dressmaking which are of great assistance to professional, as well as to amateur dressmakers.
